This is the content of a sample abstract. There is an inline math $a^2 + b^2 = c^2$. Moreover, we can see some display math

$$e^{i\pi} + 1 = 0.$$

Based on above, we have proved something. This is joint work with someone.

Then we have the second graph of the abstract. Hello world. Failure is the mother of success. Logistics take you from A to B, while imagination takes you to everywhere. I have a dream that one day everybody is happy. On more thing. Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time. I would rather have thirty minutes of wonderful, than a lifetime of nothing special.
